Should you wish, a metal polish can be used to restore the original finish. To prevent wood corrosion and discolouration, please ensure that you remove the handles from the vanity before treatment.

## FEATURES

### Wash Basins

Vitoria pedestal basins are available with 1 or 2 tap holes to suit your needs, or choose the semi-countertop style basin to use with furniture. A 2 tap hole cloakroom basin is also available. All 2 tap hole basins have provision for a chain stay waste.

### WC Choices

You have the option of high level, low level or close coupled WC, or a back to wall design to use with furniture. High and low level WCs are available in either brushed brass or chrome finishes depending on the pipe kit which you specify. Low level and close coupled WCs have full flush and reduced flush operation (6/4L) with a ceramic cistern handle. The high level WC has ornate brackets and a 6L flush.

### Soft Close Toilet Seat In White Or Black

Wooden soft close seats incorporate a chrome plated top fix hinge with adjustable fittings or alternatively upgrade to a brushed brass hinge. The natural oak seat is solid oak. Alternatively choose painted gloss white or a finish to coordinate with your Vitoria furniture.

# MIRRORS

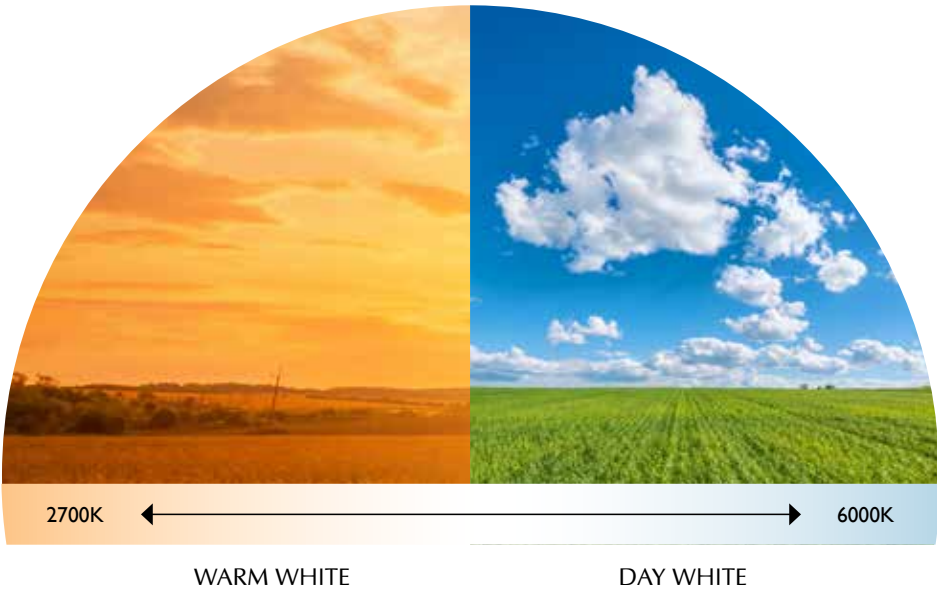

MIRROR FEATURES

Discover our collection of mirrors encompassing a wealth of design features to brighten up your bathroom.

Light Temperature Changing Technology

This lets you create the perfect bathroom environment by enabling you to adjust the warmth of your mirror illumination to suit both the task in hand and time of day. Kick-start your day with bright, invigorating daylight. Then choose a natural light to apply make-up and a warm light for sleepy late evening tasks.

Light temperature ranges from 2700K (Warm White) to 6000K (Daylight White). You can also adjust the intensity of the light to be as bright or as dim as you wish.

Steam Free

Many of our mirrors feature a heated demister pad to keep your mirror steam-free. You'll really appreciate never having to wipe it down again!

The heated demister pad heats the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms.

Bathroom Safety

Tavistock mirrors have been tested for compliance with electrical equipment safety regulations. Our illuminated mirrors are IP44 rated and suitable for use within the bathroom.

Touch Sensor

Control your lighting with just the touch of a button. Our easy to use touch sensor mirrors allow you to effortlessly switch between lighting modes to create your perfect ambience.

Infrared Switch

Easy to use, an infrared switch allows you to control the mirror with just the wave of your hand, without touching it.

**Important:** When mounting mirrors with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

See individual details on each mirror for applicable features.

OXYGEN MIRRORS

Make a statement with the Oxygen slim depth circular mirrors, available in three sizes and three stylish finishes, black, brushed brass and gunmetal.

- Energy efficient LEDs provide bright, practical task lighting.

- Touch control buttons turn the mirror LEDs on/off and control their intensity & temperature.

### Quality & Service

Exceptional service is as integral to our business as outstanding product, design and manufacturing. We invest heavily in product improvement and reserve the right to amend specifications at any time if an opportunity to further improve the product occurs to ensure complete customer satisfaction.

The furniture colours shown in this brochure are representative only and can be affected by a multitude of factors such as lighting and surrounding items. If you are unsure we would recommend obtaining a swatch from our website or your local retailer and testing in the intended bathroom area.

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina and the lighting they are compared in. Imagery shown in this brochure are representative only.

### Guarantees

All products are guaranteed against defective workmanship or materials. Length of guarantee depends on the product type - please refer to relevant section of the brochure. Guarantees are for domestic use only and are not transferable.

Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so. All dimensions are approximate and are quoted within reasonable tolerances.

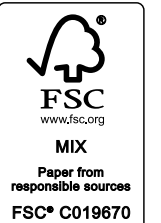

### Pricing

All prices are quoted inclusive of VAT which will be charged at the rate applicable on the date of despatch. The prices charged will be those ruling at the date of despatch and Tavistock cannot be held responsible for any errors or omissions to products or prices.
